

OLHA HUNCHENKO

Senior UX/UI Designer · Marketing Design Lead

SUMMARY

Expert in conversion-centered design with a deep understanding of how brand identity drives product adoption. Senior UX/UI Designer with **15+ years of experience across fintech, Web3, cybersecurity, and SaaS** — working at the intersection of product design and marketing. **For the past 4+ years, contributed at both strategic and execution levels within the marketing department** of a product company, covering brand identity, digital campaigns, and core product UX.

Comfortable across the full design scope: brand systems and guidelines, marketing assets, landing pages, conversion funnels, and complex technical interfaces — payment platforms, dashboards, and control panels.

Has experience leading and mentoring a team of up to 5 designers, and collaborating closely with product, marketing, and engineering teams.

SKILLS

Product design: *User research · UX audits · Wireframing · Prototyping · Interaction design · Design systems · Figma Auto Layouts · Information architecture*

Marketing design: *Conversion funnels · Email & digital campaigns · Landing pages · Advertising creatives · Event & exhibition materials · Sales collateral*

Brand & visual: *Brand identity · Visual language · Design guidelines · Typography · Iconography*

FREELANCE · B2B Tech / Cybersecurity

Senior UX/UI & Brand Designer

February 2026 – Present

- **Owned the end-to-end design lifecycle for B2B tech startups**, ensuring seamless visual and functional consistency from initial brand identity to complex product interfaces and growth campaigns.
- **Designed control panel for server infrastructure**, transforming complex technical requirements into an intuitive B2B dashboard with streamlined multi-level navigation and data-heavy management flows.
- **Spearheaded the full-funnel UX/UI strategy for a DDoS protection platform**, optimizing the user journey across both the technical customer portal and the high-converting marketing site.
- **Created responsive prototypes in Figma** using advanced Auto Layouts and components, significantly accelerating the design-to-development handoff and ensuring production-ready scalability.
- **Developed scalable brand identity systems for tech clients**, creating comprehensive visual languages and design assets that seamlessly integrated into web and product interface implementations.

COINPAYMENTS · Fintech / Web3 / Crypto Payments

Senior UX/UI Designer

August 2021 – February 2026

- **Operated as a strategic design lead** within the marketing department, bridging the gap between brand identity and product UX across all digital touchpoints.
- **Led and mentored a team of 5 designers** — task planning, workload distribution, design reviews. Implemented a streamlined design-to-development handoff process, reducing production time by 20%.
- **Redesigned the onboarding flow for the crypto payment platform**, improving the first-time user success rate.
- **Conducted UX research, competitor analysis, and usability audits** to identify pain points and inform product improvements.
- Maintained and evolved the company's design system and brand guidelines across product and marketing platforms.
- Optimized key landing pages and conversion funnels, leading to a 15% increase in merchant sign-ups through A/B testing and UX refinements.
- Created digital advertising assets, social media creatives, and email marketing campaigns aligned to campaign objectives.
- **Produced visual materials for international fintech and Web3 conferences and exhibitions.**

UKRAINIAN SOFTWARE SERVICES · Fintech / SaaS

Senior UX/UI Designer

April 2019 – July 2021

- **Spearheaded end-to-end UX design for web and mobile SaaS products**, owning the entire lifecycle from discovery and user research to high-fidelity prototyping and developer handoff.

- **Executed data-driven UX audits and competitor analysis to uncover usability gaps**, translating research insights into actionable product enhancements.
- Partnered closely with engineering teams to establish rigorous UI standards, ensuring pixel-perfect implementation and technical feasibility.

FREELANCE · E-commerce / Startups

UX/UI Designer

May 2016 – March 2019

- **Architected mobile-first design strategies for tourism and educational platforms**, overseeing the entire product lifecycle from initial discovery and conceptualization to high-fidelity UI delivery.
- **Executed end-to-end product design with a focus on usability and engagement**, ensuring all mobile interaction patterns were optimized for real-world user scenarios.
- **Leveraged user research and competitor benchmarking** to drive evidence-based design decisions, resulting in simplified user journeys and enhanced overall experience.
- Applied behavioral analysis and UX insights to transform complex interactions into intuitive mobile interfaces, **consistently meeting both user needs and business goals**.

SYSGEARS · B2B Tech / E-commerce / Corporate / Startups

UX/UI Designer

August 2013 – May 2016

- **Led the full-cycle design process for commercial and internal web projects**, transforming initial concepts into production-ready solutions through user flows, wireframes, and high-fidelity prototypes.
- **Acted as a mentor for junior designers**, fostering their professional growth and establishing high-quality design standards within the team.

AMIGOSOFT · WEBINVITE · FREELANCE · E-commerce / Corporate

Web / UI Designer

June 2011 – August 2013

- **Designed end-to-end visual interfaces and site structures for diverse e-commerce platforms, auctions, and corporate websites**, focusing on intuitive navigation and user engagement.
- **Developed comprehensive user flows, wireframes, and high-fidelity mockups**, translating business requirements into functional web layouts.
- Executed competitor research and supported usability testing to validate design decisions and ensure a user-centered approach across all projects.
